

About the Resetting Our Future series of books from Changemaker Books

Resetting Our Future: Will our era be defined by its disaster, the COVID-19 Pandemic, or by our collective response to it: a “Great Reset”? At this critical moment in history, we have a rare opportunity to reset our path and avert even bigger disasters ahead: the climate crisis, inequality, unemployment, racial injustice, ecological and economic collapse, and the next pandemic. This series of short, powerful books provides a platform for pragmatic thought leaders to share their visions for big, paradigm-shifting changes, and to motivate humankind to take the first difficult steps towards a better future.
